20 February 1986

Plans for 'Canada, the World and the Future' Continue to Mesh

These themes have been struck for the conference "Canada, the World and the Future": "Future of Canada" (10 March), "Canadian Culture — Is It?" (11 March), "Canadian Multinationalism and Social Responsibility" and "Ethics of Technology Change" (12 March), "The Medicine of the Future" (13 March), and "Mastering Space" (14 March).

"Future of Canada" consists of a morning and an afternoon session on the topic "Where is Canada Going?"

"Canadian Culture — Is It?" has the sub-themes "Cultural Sovereignty of Canada — Today Tomorrow" and "What's So Free About Free Trade?"

Under "Canadian Multinationalism and Social Responsibility", the assembly will consider the topic "Canada and the Third World — Benevolence or Malevolence?"

"Ethics of Technology Change"

has as its sub-theme "Images of the Third Industrial Revolution."

"The Medicine of the Future" asks, in conjunction with the ethics of new medicine: "Have We Created a Monster?"

"Star Wars and Space Technology" is the subject to which people attending the "Mastering Space" session will turn.

The fourth annual "Canada, the World and the Future" conference is again structured as "a critical forum for the interdisciplinary examination of important issues."

Speakers continue to confirm their participation with conference organizers. The list of speakers who are locked into the conference includes Senator Philippe D. Gigantes, Toronto lawyer Rosemary McCarney, Edmonton Glengarry MLA Rollie Cook, Vancouver playwright John Gray, Beth Bryant of Alberta Culture, Mireille Ethier of the Economic Council of Canada, former MP Bill Yurko, Arthur

Schafer, Director of the Centre for Professional and Applied Ethics, University of Manitoba, and Harry Almond, Professor of International Law, National War College, Washington, D.C.

Faculty who will participate in the conference include Brian Scarfe and K.L. Gupta, Economics; H.P. Baltes, Electrical Engineering; Ellen Picard, Law; and Larry Pratt, Political Science.

Selected members of the University community will also chair the various sessions.

Each keynote speaker will give a 25 to 30-minute talk and the rest of the session will be taken up by questions from the floor and each speaker's response to the comments of the other speakers.

The conference will not go heavy on structuring. Organizers wish to encourage a spontaneous approach, that is, the more said the better. Audiences will undoubtedly be familiar with the issues and there

Senators to Elect New Chancellor

On 28 February, Senate members will be electing a new Chancellor. The term of the current Chancellor, Peter Savaryn, expires on 30 June.

Other items on the Senate agenda include reports from Mr. Savaryn, President Horowitz and the Executive Officer of Senate, Mary Totman. The honorary degree recipients at Spring Convocation will be announced and Art Burgess, Coordinator, Staff Fitness Program, will introduce Senators to the smorgasbord of courses offered by the Staff and Fitness Lifestyle Program.

Following lunch in the Heritage Lounge, Athabasca Hall, Senators will reconvene in the Council Chamber, University Hall, to hear presentations concerning the Boreal Institute for Northern Studies and the new four-year BA and BSc programs.

All interested persons are invited to attend the Senate meeting. It will start at 9:30 a.m. in the Council Chamber, second floor, University Hall. □

will be ample opportunity for questions and comments from the floor.

All sessions are open to the public. They will be held in Bernard Snell Hall, Mackenzie Health Sciences Centre.

In the evening of 13 March, various ethnic dances will be performed in Convocation Hall. There will also be music and poetry, both bearing a decidedly international flavor.

Further details on the conference will be published in the next two issues of *Folio*. □

'Natives and Criminal Justice System'

Leading Canadian experts and practitioners are set to participate in a one-day "Natives and the Criminal Justice System" symposium to be held at Lister Hall on 26 February.

Sponsored by the University's Centre for Criminological Research, Native Counselling Services of Alberta and the Native Students' Club and the Solicitor General Canada as part of Native Awareness Week on Campus, the symposium will address many of the key issues surrounding the overrepresentation of native peoples in the criminal justice system.

The 9 a.m. session will deal with a variety of these issues and will

feature a keynote address and a response from a panel of experts, including Kathy Louis, Senior Member, National Parole Board; Wilf Cunningham, Native Program Co-ordinator, Drumheller Penitentiary; and Wilton Goodstriker, Chief of Protection Services, Blood Indian Band. Following this response, Chester Cunningham, Executive Director, Native Counselling Services of Alberta, will present summarizing remarks and lay out a series of proposals for dealing more effectively with the native crime problem.

The afternoon session, which starts at 1:30, will address the

emerging issue of the role of native culture in the fight against crime. Joe Coutiere, Co-ordinator of Psychology at Athabasca University, will speak on "Native Culture and its Role in the Criminal Justice System" and a panel of elders and experts, including Joe Cardinal, Rufus Goodstriker and Amanda Golasky, will respond.

Peter Nicholson, Director, Young Offenders Programs, Alberta Solicitor General, will deliver summarizing remarks and an overview of the Province's response to the problem of the native young offender at 4 p.m. A social will follow.

The symposium is free of charge. □

New BA Degree Steeped in History

Last September, General Faculties Council approved a proposal by the Faculty of Arts for a four-year BA (General) degree program, to be effective in the academic year 1986-87. The Faculty "sought to recognize the primary objective of the general degree as being not to produce specialists in a narrow sense, but to produce graduates who have the capacity to make themselves competent in any area in which they find themselves working—often between fields or between specialists and non-specialists.

"We are not seeking to produce narrow technical specialists, but those with the now much rarer skills of literacy, self-understanding, and understanding of others that is not merely knowledge of manipulative human engineering techniques."

"This curriculum revision," said the Dean of Arts, "is matter of great importance to our Faculty, in that it represents the results of an enormous amount of energy and work in assessing our current program, as well as developments at other universities."

Fred Radford, Assistant Dean of Arts, was instrumental in the preparation and advancement of the proposal. He contributed the following article.

History

In October 1985, the Board of Governors gave final approval for the phasing out of the three-year BA (General) degree and its replacement with a four-year degree program. This was the last stage of a long trek that began in 1943 when the then combined Faculty of Arts and Science first voted to replace the three-year BA and BSc with four-year degrees, in agreement with a strong recommendation from the Alberta Teachers' Association. The Faculty decided to hold up further action until staff members then in the Armed Services had returned. The War ended, but more than staff members returned, and the University entered decades of struggle just to keep pace with multiplying enrolments in the existing programs.

In 1960, the Hardy Committee Report urged once again the change to four-year degrees. In 1963, the Faculty divided into separate Science and Arts Faculties and both entities continued to strive to force four years of learning into three years of program. Given the expansion in knowledge in these years, the degree of success was remarkable, but there was a growing sense that valuable program initiatives and desirable curriculum improvements could not be fitted

into the short degree period. The Moore Committee Report of 1970 led to the introduction of the four-year BA (Special) as "an interim and transitional measure" whose graduates in the following years helped prove the worth of a four-year program.

In the meantime, the University of Calgary attained independence and abandoned the three-year degree, while the University of Lethbridge was established without three-year degrees. The pertinent Calgary report remarks that "The Committee finds that no matter how the courses are combined and arranged, it is impossible to arrive at the desired results in less than four years." (Curriculum Committee Report, April 1968, p. 5.)

Not until 1980 did conditions seem right for the Faculty of Arts at the University of Alberta to reconsider the matter. In that year, the Curriculum Committee put to the Arts Faculty Council a proposal of general principles for a four-year general BA program, and these principles were overwhelmingly approved.

At the same time, the Faculty of Arts decided to make an exhaustive overhaul of the curriculum, with the intention that the new degree should have one of the best Liberal Arts programs in North America. Graduates of existing programs were surveyed; the degree requirements at other universities were examined; and all departments of the Faculty were invited to contribute proposals for their areas and for the program in general. The Radford Committee, which produced the draft of the proposed new curriculum, had representatives from all divisions of the Faculty, as well as strong student representatives who contributed vigorously to the process, and influenced its results. A first draft curriculum was circulated to all departments and radically amended in response to criticisms and suggestions. The final draft was debated, dissected, revised, and approved in many hours of meetings of the entire permanent academic staff of the Faculty of Arts.

By 1985, the Faculty of Science was ready with a joint proposal and Dean T.H. White took the new Arts BA program successfully through the Planning and Priorities Committee, the Academic Development Committee, Graduate Faculties Council Executive and Graduate Faculties Council, to approval by the Board of Governors of both the four-year BA and the four-year BSc in October 1985.

The BA Degree

The new four-year BA degree will replace the existing three-year BA (General) and four-year BA (Special). Students already enrolled in the old programs will have until 30 April 1994 to complete their degrees under current regulations. Honors degrees and specialized Fine Arts and Music degrees, as well as special degrees in Canadian Studies, Criminology, and East Asian Studies, shall continue to be offered along with the new BA program. Students at Alberta colleges with which the University has transfer agreements will have the same option to complete their BA (General) or BA (Special) degrees under existing requirements, by April 1994, providing they have entered the programs before May 1986. Beginning with Spring Session, 1986, students with no post-secondary transfer credits will enter the new program.

The new four-year BA program is designed to make the best use of the student's developing knowledge and experience. The first two years consist mainly of a Core Program that will give basic skills and knowledge in many fields. Students will take English, a second language, history or philosophy, humanities courses, social science courses, fine arts courses, natural science courses, and courses in formal studies (logic, mathematics, linguistics, statistics, computing sciences). The choice of courses will be restricted to approved lists, ranging from specifically required courses to area requirements permitting a choice from several disciplines.

For example, because the Arts Faculty believes that students in first-year English benefit especially from consistent instruction that builds skills and instructor/student rapport, students may only choose one of the full-year courses, English 200 or 210, for this requirement. Conversely, students taking courses from the second Social Sciences requirement will normally have already taken one year of a basic Social Science, so the Faculty believes they should be allowed to range fairly widely for the second Social Science. They may choose from some 25 full-course equivalents of approved courses in 11 disciplines, to satisfy this requirement.

A special subcommittee consulted with the Faculty of Science to devise a science requirement appropriate for our technical age. Students will be required to take

one full course of an approved laboratory science; a half-course of formal studies; and a further half-course of either science or formal studies, or a half-course in the history, methodology and philosophy of science and technology.

After completing the Core Program, students will be in the best position for specializing in their preferred discipline and for choosing more freely among optional subjects. Building on the broad foundation laid in the first two years, students will take from five to seven senior courses in their Major Subject of Concentration. Two of these full-course equivalents must be taken at the 400-level, where students will be expected to make a more independent contribution to the work of the course. Instead of a specified number of courses for a second Concentration, students are simply required to take one course at the 400-level in another area than their Major Concentration. This will require completion of the necessary prerequisites in a second field.

Depending on how many courses are taken in the Major Concentration, and how efficiently the student satisfies the prerequisites for the second subject in the first two or three years, there may be room for four or five full-course equivalents of optional courses in the last two years of the program. Thus, the student who completes the program should be enough of a specialist to have researched one or more subjects in some depth, with a good measure of independent work, and enough of a generalist to be able to transfer specialized skills to many areas of learning and experience. In other words, the graduate of the new four-year general BA program should be as well-equipped as possible for our world of perpetual change.

At present, the departments of the Faculty of Arts are busily engaged in the hard work of preparing to implement the new program. As always in such large projects, there is much difference between approving new plans and making them work in practice. It is the individual departments of the Faculty and their students who will finally decide the success of the new BA degree. Their hard work and cooperation so far give ample reason to expect that our BA graduates four years from now will be among the best prepared on this continent. □

Next: The four-year BSc (General) degree program.

In Pursuit of Excellence

by Hugh Wilson, Department of History

I wish to draw attention to a regrettable lack of unanimity on the part of members of the academic staff. Some colleagues—whole departments even—have declined to participate in an intramural competition designed to enhance the image of our University in the eyes of the province-at-large and to promote outstanding performance in the classroom. I refer, of course, to the Rutherford Awards for Excellence in Undergraduate Teaching.

Readers will be familiar with the methods of selection of appropriate recipients of this prestigious accolade, such methods including an assessment of the extent and depth of the nominee's knowledge of his/her subject derived from student opinion (who better qualified to make such an evaluation than beginners in the field?); and the esteem in which the candidate is popularly held. Notwithstanding the unexceptionable nature of these objective criteria, there are some few arrogant individualists among us who, by refusing to enter into the spirit of this entertaining peer-rivalry, threaten to undermine its laudable purposes. In order to overcome such uncollegial attitudes, I propose the following minor amendments to the competition guidelines.

1. There is an anomaly in the award of four prizes of equal value. The underlying principle of the competition is that, although many teachers are excellent, some are more excellent than others. It follows that one must be ahead of the others. This hierarchy of excellence must be acknowledged by the award of gold, silver, and bronze medals, as is customary, with certificates of qualified excellence for the runners-up.
2. Nominations will be unnecessary; any instructor may enter of his/her own volition.
3. All competitors shall present, in open forum, an exemplary lecture, which the audience will be invited to judge, either by volume of applause or by secret ballot (*vox populi vox Dei*).
4. The model lectures will be followed by a parade of all contestants, suitably attired, to demonstrate poise, composure, deportment, and general elegance (provocatively suggestive or revealing apparel will disqualify).
5. Finalists will be required to answer correctly a skill-testing question.

If these amendments are adopted, can one doubt that the reluctant minority will be persuaded to set aside their objections, the enhanced image of collegial harmony being reward enough for sacrificing their principles to the greater glory of the intellect? But should further argument be required, one need only point to the splendid, innovative ideas that have resulted from this entertaining diversion, even in its present imperfect form, since its inception some four years ago. We have all been inspired to greater effort by the advice of one former recipient, who informed us that a good teacher is born with a love of teaching and loves his students as individuals and individually: "I am father, mother, sister, brother and friend to them," he is reported to have said (*Folio*, 25 April 1985). Clearly, colleagues who hitherto have considered desirable the maintenance of some distance between teacher and student must reconsider their narrow, anachronistic prejudices.

Another ingenious idea to have emerged from this University's search for excellence is that of "breaking the ice" with new students by means of "brightly colored jellybeans." The award-winner to whom credit must be given for this practical suggestion is reported to have explained: "I don't care for jellybeans myself, but they are a good conversation piece . . ." (*Folio*, 2 May 1985). And, one might suppose, an obvious stimulant to intellectual enquiry.

Since, at present, each of four award-winners receives a cheque for \$2,500, it is clear that for the paltry annual expenditure of \$10,000 our University is receiving benefits of inestimable value in terms of an improved public image and an inspired, enlightened teaching staff. Indeed, I would urge that serious consideration be given to an increase in the value of the award. After all, such funds might otherwise be directed on the purchase of Library subscriptions to learned journals, the encouragement of literacy, the promotion of excellence in scholarship, or some other equally archaic indulgence.

Let's all pull together in this worthy cause! □

They 'Stooped' to Conquer

Money changed hands shortly after Students' Union Vice-President (Internal) Scott Richardson (bottom left) arrived at the International Student Centre (ISC) on 4 February. With Students' Council overwhelmingly backing a proposal to contribute \$12,000 to the ISC, Richardson was more than happy to carry out the assignment. ISC staff, Dean of Students Peter Miller, and International Student Advisor Wilf Allan welcomed Richardson. Barry Tonge, Director of the 15-month-old Centre, said a priority will be to update library materials. Upwards of 1,600 students representing 98 countries exclusive of Canada are studying at this University.

Drug Targeting Advances Subject of Conference

A number of researchers in or associated with the pharmacy and pharmaceutical sciences discipline will gather for a day to discuss "Advances in Drug Targeting." The day in question is 24 February, starting at 9 a.m. The conference will be held in TBW2 Tory Building.

Following opening remarks by Lionel McLeod, President of the Alberta Heritage Foundation for Medical Research, participants will listen to such speakers as A. Sinkula, Director of Pharmacy Research and Drug Delivery,

Upjohn Company, U.S.A.; Mark Poznansky and Erwin Diener of our University's Faculty of Medicine and Department of Immunology, respectively; and T. Ghose of Dalhousie University's Faculty of Medicine.

From 3 to 4 p.m., an open forum and discussion will take place. The speakers will be T. Noujaim, J.A. Rogers and M. Longenecker; Ron Micetich will be the moderator.

Concluding remarks will be delivered by John Bachynsky. □

Tour Arranged to Observe Practice of Traditional Chinese Medicine

East is east and west is west and in the practice of medicine they are poles apart and seldom meet. Where eastern medicine uses a philosophical and holistic approach, western medicine takes a scientific view combined with the use of drugs.

Stephen Aung, who is trained in both eastern and western medicine, would like to build a bridge between the two styles. He finds the eastern approach valuable in pain control and especially useful for patients who suffer from tension, sleeplessness and energy imbalance—conditions he says western medicine is not able to handle satisfactorily. Acupuncture, hypnosis, magnetic therapy, and color therapy are all part of Dr. Aung's practice.

With appointments in the Faculty of Medicine, the Cross, the Youville Wing of the General Hospital and at the Misericordia, as well as a practice in family and geriatric medicine, Dr. Aung finds himself, after only

two years in Edmonton, already overwhelmed with patients. "There is obviously an interest in eastern medicine and a need for it," he says, "but there are not enough practitioners to meet the demand."

To interest western doctors in alternative medicine and to give them an opportunity to learn about it by watching it in action in Chinese hospitals and research institutes, Dr. Aung has organized a medical study tour to China. On the "Golden Road to Golden Needle" tour members will visit hospitals in Guangzhou and Shanghai, a university department of research in acupuncture analgesia, and colleges of traditional Chinese medicine. The group will observe the practice of acupuncture anesthesia for thyroidectomy; traditional Chinese medicine in psychiatry, orthopedics and medicine; acupuncture anesthesia in neuro and abdominal surgery; the clinical application of herbal medicine; and various methods of

pain control, to name only a few items on the long itinerary.

In the East, a healer does not have to be a physician and Dr. Aung feels that even people with no medical training who are interested in the subject would enjoy the tour, which includes sightseeing as both a minor and a major component. Tour dates are 13 May to 2 June.

For more information, call 425-9723 or 426-1095. □

General Faculties Council

GFC's next meeting is scheduled for **Monday, 24 February, at 2 p.m.** in the University Hall Council Chamber.

1. Approval of the Agenda
2. Approval of the Minutes of 27 January 1986.
3. Question Period
4. New Members of GFC 1985-86

Reports

5. Executive Committee Reports
 - 5.1 Executive Committee Minutes of 20 January 1986
 - 5.2 Executive Committee Minutes of 3 February 1986
 - 5.3 Executive Committee Minutes of 17 February 1986
6. Report of the Board of Governors
7. Report of the Nominating Committee *New Business*
8. GFC Committee for the Improvement of Teaching and Learning (CITL): Request for Change in Composition.
9. Council on Student Services (COS' Annual Report 1985
10. Selection and Review Procedures for Deans and Chairmen: Proposal from the Faculty of Engineering
11. Other Business

For information concerning this agenda, or any items which may have been added to it at the GFC Executive Committee meeting of 17 February 1986, members of the University community may telephone the Secretary to GFC (432-5430).

Computing Science Open House

The Department of Computing Science will hold Open house '86 on Saturday, 22 February. The event is scheduled for 11 a.m. to 5 p.m. on the second floor, General Services Building.

Physical Sciences Library Open House

There will be an orientation and open house in the Physical Sciences Library on Wednesday, 26 February, from 2 to 4 p.m.

The occasion allows people to acquaint themselves with the location of the Library (72-74 Chemistry WB) and the content of the collection.

A demonstration of DOBIS (the online catalogue) will be provided as will a brief overview of the COM and card catalogues.

Refreshments will be served courtesy of the Sci.Tech. branch staff. Everyone welcome.

Activities

M. Stock, a recent graduate in the Department of Zoology, was the recipient of the "Canadian Society of Zoologists Outstanding Thesis Award" for 1985 . . .

Théâtre à la Carte, a troupe from Faculté Saint-Jean, participated as guest of honor in the 1st Festival of Theatre Schools of Europe (FETE). The Festival was held at Alès, France, 17 to 24 January. The French-Albertan troupe, under the direction of **Pierre Bokor**, performed Michel Tremblay's play "En Pieces Detachees" and participated in workshops, exchanges and meetings. The troupe was awarded the Special Prize of the Jury and later received an invitation to take part in the IXth World Festival of Young Theatres scheduled for 30 June to 7 July at Bratislava, Czechoslovakia . . . **Lorna Arndt** is the new Special Sessions/Convocation Coordinator, Office of the Registrar . . . University Professor **L.C. Green** is a member of the advisory committee for the Canadian Conference on Nuclear Weapons and the Law to be held in Ottawa.

Donald Murray Ross, 1914 - 1986

Donald Murray Ross, PhD, DSc, FRSC, died on Thursday, 13 February, in the University of Alberta Hospital. He is survived by his wife, Ruth, son Andrew and daughter Mary Beebe.

Dr. Ross was born in Sydney, Scotia, in 1914. He received his B.A. in Biology from Dalhousie University in 1934, at which time he won the Governor-General's Gold Medal and the Avery Prize. Following an MA from Dalhousie, he was an 1851 Exhibition Science Research Scholar at Cambridge from 1937 to 1940. Dr. Ross was a Research Officer in the School of Agriculture at Cambridge, then a Lecturer in University College, London. In 1961, he came to Edmonton to head the Department of Zoology at the University of Alberta. In 1964, he became Dean of the Faculty of Science, a post he held until 1976. He became Professor Emeritus in 1979.

Donald Ross led the Faculty of Science through its period of greatest growth to its international position of respect as a community of scholars of remarkably high standard. He did this by example, for he remained active as a scientist and teacher throughout his period as an administrator and into retirement. He was a popular and respected Dean, by virtue of the reasonableness of his administrative actions and the persuasiveness of his personality.

Publication of research results began early, while still an undergraduate, and continued until the present with more than 80 publications. His major research interest was in the behavior of marine invertebrates, in particular with the interrelationship of sea anemones with their hermit crab hosts. He showed how the anemones and their hosts have co-evolved amazingly complex

behaviors that are mutually dependent. From these studies he developed a general interest in symbiosis (how different species live together). The 1950s was a period when the field of comparative physiology enjoyed considerable attention, mostly due to the work of some very talented young biologists in Britain. Don Ross was very much a member of this group, and his interactions with them led him to be convinced that an understanding of physiological principles could be obtained by examining the ways animals are uniquely adapted. He studied the behavior of sea anemones using many techniques besides the objective observations required by modern ethology. For example, he was a pioneer in using pharmacological techniques in an attempt to identify the neuro-transmitters used by sea anemones, and with Ian Lawn he used electrophysiological methods to describe how the nervous system controls behaviors such as detachment and swimming.

Dr. Ross was particularly adept at cinematic recording of the behavior of his animal subjects. By such means he was able to arouse great interest in the often spectacular behavior of seemingly passive animals in the presence of predators, prey or symbionts. His films were selected for presentation at Expo 67, and won prizes at

competitions in Italy, Australia and Hungary.

Many other awards came to Donald Ross. Among these were the Queen's Jubilee Medal, 1977, and the Fry Medal of the Canadian Society of Zoologists in 1980.

It may seem strange that study of marine organisms was undertaken from Alberta, but, in fact, Zoology at the University of Alberta has developed a strong and growing reputation in marine biology following his example. An accomplishment of which Don Ross was especially proud was the establishment of the Bamfield Marine Station on Vancouver Island. He presided over its funding and early development. An old Trans-Pacific Cable terminus and 180 acres of land at Bamfield have been developed since 1970 into a major marine research station, supported by two Alberta and three British Columbia universities, as well as the Natural Sciences and Engineering Research Council of Canada. It attracts researchers from around the world and is instrumental in training marine scientists for Canada. The cooperative interaction at Bamfield is a monument to an innovative and imaginative scientist. Donald Ross will be sorely missed by co-workers from many countries, as well as by his friends and associates at the University of Alberta. □

Ursula Franklin a Guest of WISEST

"What Women Really Want: An Explanation Especially For Men" is one of the topics to be addressed by Ursula Franklin, a distinguished scientist, when she visits campus as a guest of WISEST (Women in Scholarship, Engineering, Science and Technology) from 27 February to 2 March. She will also describe the work of her own group in the Department of Metallurgy at the University of Toronto in a talk titled "The Role of Scientists and Scientific Studies in Art, Archaeology and Conservation." Dr. Franklin will speak on Thursday, 27 February, in E3-25 of the Chemistry Building at 7:30 p.m. Her talk is sponsored by the Chemical Institute of Canada. Everyone interested is invited to attend.

On 28 February, Dr. Franklin will

hold an informal talk, especially for men, on what women really want and what male colleagues stand to gain when they get it. This will be at 4 p.m. in E3-25 Chemistry Building.

"How to Get From Here to There" is the title of a workshop to be conducted by Dr. Franklin on Saturday, 1 March, in 235 Central Academic Building, from 10 a.m. to 3 p.m. The workshop is designed for female undergraduates, graduate students and professionals in the sciences and engineering. It will provide practical advice, and will include a discussion of the structure of science as currently practised and of direction for change in the structure of academic enquiry. □

Food Services Division Wins Award

The Food Services Division of Housing and Food Services—which is contracted out to Saga Canadian Management Services Limited—has won the 1985 Award of Excellence, presented by the Saga Corporation.

Each year, Charles Lynch, CEO and Chairman of the Board of Saga Corporation, chooses one account in the division of the company to receive his award of excellence. A plaque was presented in December by Jack MacDonald, President, Saga

Canadian Management Services Ltd., to David Bruch, Director, Housing and Food Services, and Alan Rennie, Associate Vice-President (Administration).

According to Larry Llewellyn, Food Service Officer, "the award is presented not only to the Food Service Management but especially to the staff and administration of the University because without their support Saga could not be successful." □

Catharine Stimpson Lecturing on 'Meanings of Feminist Criticism'

Catharine Stimpson is well-known for her work in two fields: English, and women's studies. She is both Professor of English and Director of the Women's Research Institute at Rutgers University. Ms. Stimpson is the fourth speaker in the 1985-86 Women's Studies Lecture Series, which is sponsored by the Vice-President's (Academic) Advisory Committee on Women's Studies and the Faculty of Arts.

Catharine Stimpson is the author of numerous papers and essays and has written one novel, *Class Notes*. She is currently at work on a second novel, *Suffer the Little Children*, as well as on a critical study titled *Gertrude Stein and the Replacing of the Avant-Garde*. Ms. Stimpson is also the founding editor of *Signs: A Journal of Women in Culture and Society*, a scholarly, multidisciplinary publication. She has served on the editorial boards of

several feminist publications and frequently reviews manuscripts for a number of publishing houses and presses. Since 1981 she has headed the Ms. Board of Scholarship, Research and Education. In her career as a Professor of English, Stimpson has developed and taught courses on Literature and Violence, Literature and Revolution, Explorations in Black Literature, and Sexuality and Literature.

The Advisory Committee on Women's Studies, with financial assistance from the Secretary of State Women's Program and the Faculty of Arts, is delighted to bring Catharine Stimpson to the University of Alberta. On 27 February, she will give a free public lecture titled "The Meanings of Feminist Criticism". This lecture will take place in L-1 Humanities Centre from 3:30 to 5 p.m. □

Edward Lozowski, S.K. Sehgal: McCalla Professors

Edward Lozowski has done research into various aspects of the ice accretion phenomenon, his interest having been stirred by an investigation of hail which began in 1965. In 1977, he undertook the study of aircraft and power transmission line ice accretion and, in 1984, marine icing entered his range of study.

In October 1984, Dr. Lozowski and a research partner, E.M. Gates of the Department of Mechanical Engineering, received a three-year NSERC Strategic Grant to conduct marine icing research. The final

year of that grant, 1986-87, corresponds to the time frame of his McCalla Professorship. The release from teaching also allows Dr. Lozowski more time to work with a select group of students on various aspects of the ice accretion problem.

His application to the McCalla committee shows that he and Dr. Gates are constructing an indoor refrigerated marine icing wind tunnel, "the only such facility in the world." It is expected experiments will start this summer.

Dr. Lozowski was elected a Fel-

low of the American Meteorological Society in 1985.

S.K. Sehgal

Dr. Sehgal is immersed in studies of mathematical structures known as group rings. Theory of group rings has been prominent in representation theory of groups and algebras and algebraic topology for some time. Lately, a number of researchers have turned their attention to group rings.

"It is felt," says Dr. Sehgal, "that to do innovative finite group theory the methods of ring theory must be

developed further. We are working hard to do just that." Dr. Sehgal and his associates have, in fact, proposed 42 research problems which have received more than passing attention from mathematicians in Stuttgart, Sao Paulo, Warsaw, Heidelberg and elsewhere.

The isomorphism problem, the problem of the normal counterpart, the conjugacy problem, orders of torsion units and the idempotent problem will tax Dr. Sehgal in the forthcoming months. Still, he won't be working in isolation. Several individuals with like interests will visit the Department of Mathematics this year and next. □

Faculty Women's Club Moves Into 1986

Energetic involvements for the New Year surfaced during a well attended gourmet potluck dinner on 14 January at the home of Mrs. F.D. Jones. Executive members and interest group conveners gathered for their annual social event where some highlights of the '86 social calendar were released.

Sunday, 2 March, noon to 8 p.m.—"Midwinter Escape"—ski, skate, birdwatch, chat or bridge at 114 E. Sundance, Pigeon Lake. Telephone regarding menu.

Wednesday, 5 March, noon—Papaschase Room luncheon (Faculty Club) featuring a slide presentation of the first Canadian trek to the North Pole described by Allan Mayer and Ed Struzik. The trek was made last spring, so details of the last frontier are still vivid. Inuit-inspired "Fashions by MacPhee" will circulate the lounges

accompanied by northern ballads from Bob Ruzicka and Ted Wesley. Your own northern dress or accessories would add to the atmosphere.

30 April, 7 p.m.—Final dinner at the Derrick Club featuring a highly qualified national speaker, Father Lucien Larre, a founder of the Bosco homes for teenagers in Calgary and Regina. These homes offer treatment programs for dropouts. Father Larre's warm and humorous presentations have delighted countless audiences across the land. His motto is, "The difficult we can do immediately; the impossible will take a little longer."

This speaker was too heavily booked to be obtained for National Youth Year, but he has made time for the Faculty Women's Club's final banquet. Ticket information, 434-2661 or 436-0571. □

University Writers to Read

Novelists Henry Kreisel and Rudy Wiebe, and poet Douglas Barbour will participate in the "Bards of March", an evening of readings by prairie province writers, 15 March at 7:30 p.m. in the Jubilee Auditorium Banquet Room.

The evening is designed as a benefit in support of the NeWest Institute whose intent, since its founding in 1980, has been to further Western Canadian studies through conferences, fellowships and publications. The Institute is affiliated with the Edmonton-based NeWest Press which in the past decade has published an extensive

list of fiction, criticism, drama and poetry of Western Canadian writers.

Other writers who will read from their works during the evening are Robert Kroetsch, Aritha van Herk, Smaro Kamboureli, Don Kerr and Birk Sproxtton. Only 200 tickets will be available for the benefit. Ticket holders are eligible for draws which include a Chuck Wissinger sculpture, a set of first editions by Rudy Wiebe, and a selection of books from NeWest Press. Tickets are on sale now and can be obtained from a number of bookstores, including Brownings in HUB, and Aspen Books. □

Talks

Mathematics

20 February, 4 p.m. Norman R. Reilly, Simon Fraser University, "Groups Endowed with Lattice Structure." 657 CAB.

Medicine

21 February, 8 a.m. W.J. Vanast and Lorne Tyrrell, "Headaches and Infectious Diseases: Old Myths and New Concepts." 2-115 Clinical Sciences Building.
21 February, noon. R.S. Smith, "Computer Enhanced Light Microscopy." SMRI Conference Room.
22 February, 8 a.m. D. Modry, "Heart Transplants." 5H202 Mackenzie Health Sciences Centre.

Canadian Institute of Ukrainian Studies

21 February, 7:30 p.m. Andrij Hornjatkevych, "The Language of Kotliarevsky's 'Eneida' from a Computer Perspective" (in Ukrainian). Heritage Lounge, Athabasca Hall.

English

24 February, noon. Poet Don McKay will read from his works. L-3 Humanities Centre.
24 February, 4 p.m. Brent MacLaine, "Fleeing the Centre: Exploding the Text in *Gravity's Rainbow*." 5-20 Humanities Centre.
3 March, 4 p.m. Bruce Stovel, "Evelyn Waugh's *Decline and Fall*: The Mysterious Origins of Captain Grimes." 5-20 Humanities Centre.

Plant Science

24 February, 1 p.m. Robert Hornford, "The Effect of Tillage and Cropping Systems on the Potential Weed Flora." 1-06 Agriculture-Forestry Centre.
26 February, 1 p.m. Larry Gusta, Crop Development Centre, University of Saskatchewan, "The Limitations of Cold on Crop Production in Western Canada." 1-06 Agriculture-Forestry Centre.

Slavic and East European Studies

24 February, 3 p.m. O. Zujewskij, "Expressionism in the Works of Andreev." 776 General Services Building.

Rehabilitation Medicine

24 February, 4 p.m. Cynthia Shewan, Director of Research, American Speech and Hearing Association, "Some Issues/Concerns in Aphasia and Research." 203 Corbett Hall.
3 March, 4 p.m. Franklin Stein, Director, Occupational Health Program, University of Wisconsin, Milwaukee, "Stress Management in Schizophrenia." 203 Corbett Hall.

Alberta Heritage Foundation for Medical Research

24 February, 4:30 p.m. Maureen Leahey Team Director, Mental Health Service Holy Cross Hospital, Calgary, "Findings from Research on Divorce: Implications for Treatment of Single Parent Families." Faculty of Nursing, 3-101 Clinical Sciences Building.
10 March, 4:30 p.m. Thelma Wells, Associate Professor/Associate Research Scientist, School of Nursing, University of Michigan, "Analyzing Clinical Problems in Care of the Elderly: Immobility and Incontinence." Faculty of Nursing, 3-101 Clinical Sciences Building.

Canadian Society of Environmental Biologists (Alberta Chapter)

24 February, 5:30 p.m. Jennifer McQuaide-Cook, Corporate Planner, Alberta Special Waste Management Corporation, "Technological Aspects of Hazardous Waste Management." CW-410 Biological Sciences Centre.

CITL

25 February, 2 p.m. Michael Gibbins, Director, Centre for the Advancement of Professional Accounting Education, "Curriculum Development in a Large Lecture Section: Happy But Wisert!" TB-W2 Tory Building.
26 February, 1 p.m. Roger Dugas, "Time Savers—Time Management." 5-04 Business Building.
27 February, 10 a.m. Robyn Mott and L. Marckworth Stanford, "Teaching Dossier." TB-W2 Tory Building.
4 March, 2:30 p.m. Maryanne Doherty, "What is Modularized Instruction?" 219 Home Economics Building.

Classics

25 February, 3:30 p.m. P. Vivante, McGill University, "Homer's Sense of Time." 1-8 Humanities Centre.

26 February, 11 a.m. P. Vivante, "Homer's Sense of Time." 1-7 Humanities Centre.

Chaplains' Association

25 February, 4:30 p.m. Bruce Miller, "Dietrich Bonhoeffer and the Suffering God." Meditation Room, SUB.

Central Institute for Northern Studies

26 February, noon. Gurston Dacks, "The Case Against Division of the Northwest Territories." 1-25 Tory Building.

5 March, noon. Doug Stenton, "Thule Culture Inland Adaptations on Southern Baffin Island." 1-25 Tory Building.

12 March, noon. Clifford Hickey, "Northern Social Science at the University of Alberta—Where Do We Go?" 1-25 Tory Building.

Forest Science

26 February, noon. P.B. Milimo, "Embryo Covers and Germination in *Melia volkensii* Gurke. Seeds." 4-1 Mechanical Engineering Building.

Botany

26 February, 4 p.m. Dennis Gignac, "The Effects of Metal Contamination on Peatlands Near Sudbury, Ontario." M-149 Biological Sciences Centre.

5 March, 4 p.m. William Gruezo, "The lichen genus *Lobaria* (Schreb.) Hoffm. in the Philippines." M-149 Biological Sciences Centre.

Women's Program

26 February, 7:30 p.m. Myrna Kostash, "A Teenage Girl: Who Does She Think She Is?" 129 Education South.

6 March, 7:30 p.m. Zohra Husaini, "Making Visible the Reality of Immigrant Women." 120 Corbett Hall.

12 March, 7:30 p.m. Alison Jaggar, University of Cincinnati, "Women: Different But Equal." L-1 Humanities Centre.

Music

27 February, 11 a.m. Gregory Butler, "J.S. Bach and the Concord-Discord Paradox." 2-15 Fine Arts Building.

27 February, 3:30 p.m. Gregory Butler, "Music and the *Ars Inveniendi* in the Late Baroque." 2-34 Fine Arts Building.

Limnology and Fisheries Discussion Group

27 February, noon. Ed McCauley, University of Calgary, "Fluctuations, Oscillations, and Stability of Natural Predator-Prey Systems." G-217 Biological Sciences Centre.

6 March, noon. Randy Shaw, "Seepage Meters: How Useful Are They? (Or Can Seepage in Lakes be Measured for \$10?)" G-217 Biological Sciences Centre.

Centre for the Study of Mental Retardation

27 February, 12:30 p.m. John Kirby, University of Newcastle, New South Wales, Australia, "Reading Differences in Children." P-121 Biological Sciences Centre.

6 March, 12:30 p.m. C.K. Leong, Institute of Child Guidance and Development, University of Saskatchewan, "Varieties of Dyslexias." P-121 Biological Sciences Centre.

Soil Science

27 February, 12:30 p.m. R.P. Innes, Stanley Associates Engineering, "Requirements for Field Soil Investigations for New Developments and Contaminant Cleanup." 281 CAB.

6 March, 12:30 p.m. K. Peters, Hardy and Associates Ltd., "Requirements for Soil Analysis for New Developments and Contaminant Cleanup." 281 CAB.

Slavic and East European Studies

27 February, 3:30 p.m. Gleb Zekulin, University of Toronto, "Features and Characteristics of Russian Emigré Literature (1918-1980)." 776 General Services Building.

Advisory Committee on Women's Studies

27 February, 3:30 p.m. Catharine Stimpson, "The Meanings of Feminist Criticism." Co-sponsored by the Faculty of Arts Women's Studies Lecture Series Committee. L-1 Humanities Centre.

4 March, 3:30 p.m. Alison Jaggar, "Feminist Challenge to Western Political Theory." 5-20 Humanities Centre.

5 March, 7:30 p.m. Alison Jaggar, "Teaching Sedition: Some Dilemmas of Feminist Pedagogy." L-1 Humanities Centre.

7 March, 2:30 p.m. Alison Jaggar, "Further Discussion of 'Teaching Sedition.'" Location: TBA.

Economics

27 February, 3:30 p.m. Robert Halvorsen, University of Washington, "Testing for the Efficiency of Extraction of Non-Renewable Resources." 8-22 Tory Building.

Entomology

27 February, 4 p.m. Alec McClay, Alberta Environmental Centre, Vegreville, "Biological Control of Weeds, in Theory and Practice." TB-W1 Tory Building.

6 March, 4 p.m. C.P. Abecia, "Population Development of the Acarine Fauna on Soybeans Grown in a Modified Grassland." TB-W1 Tory Building.

Centre for Gerontology

28 February, noon. Alan Dobbs, "Time Course of Memory and Cognitive Changes in Alzheimer's Patients." Classroom F, Mackenzie Health Sciences Centre.

Art and Design

28 February, 2:30 p.m. Patricia Ainslie, Glenbow Museum, "Canadian Block Prints, 1919-1945." 2-20 Fine Arts Building.

Comparative Literature

28 February, 3 p.m. William Beard, "Some Aspects of Popular Cinema." Senate Chamber, Arts Building.

Hong Kong Graduate Students' Association

28 February, 5 p.m. J.S. Lin, "A Humble Remonstrance: Chinese Intellectuals in 'Reaching the Middle Age.'" 1-129 Tory Building.

Arts

6 March, 4 p.m. S. Neuman, "Importing Difference: Feminist Criticism and Canadian Women Writers." 5-20 Humanities Centre.

Zoology

14 March, 3:30 p.m. Roy A. Stein, Department of Zoology, Ohio State University, "Stocking Piscivorous Predators Into Ohio Lakes: Applying Ecological Approaches to Fish Management." M-149 Biological Sciences Centre.

Films

Germanic Languages

26 February, 7:30 p.m. "Flüchtlinge" (1933). Admission free. Arts 17.

The Arts

SUB Theatre

21 February, 8 p.m. "Pee-Wee's Big Adventure" (1985).

22 February, 7:30 p.m. Chinese Students' Association presents "China Night." Contact the CSA Office, 030 U SUB, for tickets and information.

23 February, 8 p.m. "To Live and Die in L.A." (1985).

27 February, 7:30 p.m., 8:15 p.m. and 9 p.m. CBC "Front Page Challenge"—live TV taping. Free tickets, 469-2321.

28 February and 1 March, 8 p.m. "Dance Extravaganza '86." Edaas, 424-0353.

Edmonton Film Society

24 February, 8 p.m. "A Nos Amours" (France). TL-11 Tory Lecture Theatre.

3 March, 8 p.m. "The Flavor of Green Tea Over Rice" (Japan). TL-11 Tory Lecture Theatre.

Courtyard Concert Series

27 February, 12:15 p.m. Cheryl Charuk, vocalist. Fourth Level East Atrium, Mackenzie Health Sciences Centre.

Music

27 February, 8 p.m. Senior Student Recital—Sandra Butner, flute. Convocation Hall.

2 March, 8 p.m. Final "Encounters" concert of the season. Convocation Hall.

Broadcasts

Radio

CKUA radio 580 AM and 94.9 FM.
22 February, 7 p.m. "University Concert Hall."

CJSR radio 88.5 FM.

23 February, 10:20 a.m. "Science Digest—Ethology."

2 March, 10:20 a.m. "Paper Tygers—Literary Agents."

CJSR-FM 88.5, Campus Radio. Eclectic programming, including folk, jazz, new music, rock, and U of A news and sports coverage. See *Airtight* magazine for full programming details. Send public service announcements to 224 SUB, 432-5244.

CBC AM Radio

9 March, 8 a.m. "Sunday Arts—Alberta Anthology, 'The Rose Tatoo' by Carolyn Hlus."

Sports

21 to 23 February. Swimming—CWUAA Conference Championships. West Pool.

Award Opportunities

Announcement: Bridge Funding

The Social Sciences and Humanities Research Council (SSHRC) recently announced a change in the Research Grants Program to a single annual deadline of 15 October for applications. The cancellation of the 15 May 1986 competition may have left some Council-supported researchers with on-going projects, who were planning to apply in that competition, without support for a short period.

To assist scholars in this position, SSHRC is inviting them to submit requests for supplementary funding, to bring their research schedule into line with the Research Grants Program's new competition schedule. *Eligibility:* Those whose grants are due to expire between 1 November 1986 and 31 March 1987, and who wish continued support for an on-going project, may apply. The Council is unable to entertain requests for support of new activities outside the usual adjudication process. Applicants whose proposals were refused in the October 1985 or March 1986 adjudications are not eligible. *Application:* Applicants should write to the Council no later than 15 April 1986, giving a progress report of research carried out under the current grant, an up-to-date financial statement, a brief outline of activities to be undertaken in the interim funding period, and a budget. The request may not exceed the current level of support, prorated for the period requested. Current file number should be quoted when making a submission. *Awards:* Awards will be in the form of supplementary grants ending no later than 31 March 1987, when grants will become available subsequent to the normal March 1987 adjudication (deadline for applications: 15 October 1986). The maximum period of support through this mechanism, therefore, will be five months. *Announcements:* It is expected that decisions on requests for supplementary funding will be announced in early June, following review of the requests and reports submitted and approval by Council.

Maimie S. Simpson Memorial Scholarship

The scholarship, to be presented for the seventh time in 1986, is in the amount of \$1,500. It will be presented by the Alumni Association to a full-time student who has attended the University of Alberta for at least the two previous years.

Criteria

1. The basis for selection will be the student's contribution to campus life and to the University of Alberta community.
2. The student must have a satisfactory academic standing and plan to continue studies at the University of Alberta.

Application forms and further information may be obtained from: University of Alberta, Alumni Affairs Office, 430 Athabasca Hall. Telephone: 432-3224.

Application deadline: 14 March 1986.

The Rotary Foundation Graduate Scholarships

Donor: The Rotary Foundation of Rotary International. **Where tenable:** A country in which there are Rotary clubs, but not in the country of the sponsoring Rotary club. **Level:** Post-graduate. **Field:** Open. **Value:** Round-trip transportation between scholar's home and study city, all required academic fees, some necessary educational supplies, on-campus double-occupancy room, on-campus board, limited educational travel and limited contingency expenses. **Number:** Not specified. **Duration:** One academic year (usually nine months). Not renewable. **Conditions:** Must complete a Bachelor's degree or equivalent before commencement of scholarship duties; age as of 1 October 1985 is 18 through 30 inclusive; may be married but spouse's expenses not paid; proficiency in native language of host country; citizen of a country in which there is a Rotary club; cannot accept additional funding without approval by the Rotary Foundation; cannot accept full-time employment in host country. **Closing date:** 1 March to 1 October (check with local Rotary club for applicable closing date). **Further information and application forms should be requested from:** Rotary Club of Edmonton, Room 403, Chateau Lacombe, 101 Street, Bellamy Hill, Edmonton, Alberta T5J 1N7. Telephone: 426-4355.

Positions

The University of Alberta is committed to the principle of equal opportunity in employment and encourages applications from all qualified people.

In accordance with Canadian Immigration requirements, these advertisements are directed to Canadian citizens and permanent residents.

Non-Academic

To obtain further information on the following positions, please contact Personnel Services and Staff Relations, 2-40 Assiniboia Hall, telephone 432-5201. These vacancies cannot be guaranteed beyond 14 February 1986.

- Clerk Steno II (Part-Time), Philosophy, (\$595-\$739)
- Clerk Typist III (Trust), MSB Animal Unit, (\$1,326-\$1,666)
- Clerk Typist III, Universities Co-ordinating Council, (\$1,326-\$1,666)
- Clerk Typist III, Personnel Services and Staff Relations, (\$1,326-\$1,666)
- Clerk Steno III (Split-Funded), Boreal Institute, (\$1,326-\$1,666)
- Clerk Steno III, Biochemistry, (\$1,326-\$1,666)
- Clerk Steno III (Trust), International Briefing Centre, (\$1,326-\$1,666)
- Data Entry Operator II, Computing Services, (\$1,371-\$1,739)
- Administrative Clerk, (Part-Time), Pension and Benefits, (\$739-\$944)
- Secretary (Trust), Institute of Law Research and Reform, (\$1,478-\$1,888)
- Secretary, Housing and Food Services, (\$1,478-\$1,888)
- Secretary, Planning and Development, (\$1,478-\$1,888)
- Audio/Video Technician II (Temporary), Radio and Television, (\$1,810-\$2,337)
- Technologist I (Trust), Genetics, (\$1,888-\$2,437)

For vacant Library positions, please contact the Library Personnel Office, Basement, Cameron Library, 432-3339.

Accommodations available

- Sale - City residential lots. Some ravine. \$49,000 up. Buy now. Ask for Pat or Chris, 436-5250, 433-5664. Spencer's.
- Sale - 160 acres, \$25,900. Close to Long Lake. Good fishing. Ask for Chris or Pat, 436-5250, 437-6540. Spencer's.
- Sale - Windsor Park. Exclusive. Tall trees, charming bungalow on big lot. Ask for Pat von Borstel, 436-5250, Spencer's. 437-6540 res.
- Sale - Grandview. Spacious, brick bungalow on quiet crescent. South back yard. Beautiful, big trees. New exclusive listing. Ask for Pat von Borstel, 436-5250, Spencer's. 437-6540 res.
- Rent - Mountain chalet. Ideal for up to six persons. Kitchen, hot tub, excellent dining room nearby. By day or week. Overlooking Jasper Park Gate. 435-6504.
- For sale - Belgravia, new listing! Immaculate, two-bedroom bungalow. Fantastic location, hardwood floors, dining room. Asking \$90,000. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For sale - Belgravia. Four-bedroom semi. Super location. Fireplace. Asking \$88,500. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For sale - Belgravia. Spacious, three-bedroom bungalow. Main floor family room, excellent location. Asking \$109,500. Ed Lastiwka, LePage, 437-7480, 437-4984.
- For rent - Aspen Gardens. Four-bedroom house. May-mid July. \$600/month. 432-2989.
- Sale - Five bedrooms, 3 1/2 baths on three acres. Beautifully landscaped and decorated. Four minutes south of Millwoods Hospital, 25 minutes to University. 1,800' plus finished basement. Heated garage. \$185,000. 988-5127.
- Sale - New listing, Parkallen. Fine, four-bedroom home. Upgraded kitchen, bathroom. Good basement development. \$81,900. Call Joyce Byrne, 435-6064, 436-5250. Spencer's.

- For rent or sale - To family, five-bedroom house. University area. 436-2587.
- Sale - Lake lot. Behind park reserve. Sunshine Bay, Wabamun. \$29,000. (604) 248-8013.
- Rent - Bonnie Doon. One-bedroom, four appliances. \$270. 465-2632.
- Sale - 2,372 sq. ft. bungalow. Large master plus three other bedrooms. Den, three baths, 75x150 lot, beautifully landscaped. For private showing contact Michael, 462-5000, 24 hr. Re/max.

Accommodations wanted

- Psychology professor requires house for approximately one year period from 1 August 1986. Phone (403) 343-0645 after 6 p.m.
- Reliable, academic family with two children seek unfurnished house in good area. Preferably north of river. On long let, from July 1986. Reply: Dr. Griew, 8 Wootton Way, Cambridge CB3 9LX, England.
- Professional couple with two small children, to rent 2-3 bedroom house near University or Southgate. April or May, maximum \$600/month. After 8 p.m. 435-7682.

Goods for sale

- Cash paid for used appliances. 432-0272.
- Good selection of new and used typewriters from \$99. Mark 9, HUB Mall. 432-7936.
- 1985 Honda Spree. 1,000 km. \$490. 436-2587.
- Gemeinhardt Piccolo with case. Offer? 436-2587.
- Kenwood integrated amp-80 watts per channel. \$225. 482-1155.
- Furniture of all kinds, with major antique items. Small, old house for lake lot. Plus gas heaters. Call 439-3531.

Services

- Donnic Word Processing. Specializing in theses, manuscripts, etc. 8315A 105 St. 432-1419.
- Backaches? Stress tension? Special therapy at Back-Basics (supplementary health care reimburses treatment costs). Maria Krieg is a spine specialist,

- university-trained in Düsseldorf. 11610 75 Avenue. 436-8059.
- Professional typing. We do "rush stuff." 461-1698.
- Professional typist - Word processing. Specializing in theses and dissertations. Gwen, 467-9064.
- Singles? Join our select social group, enthusiastic, liberal-minded Unitarians. Call Audrey, 489-8842, Ernie, 474-5358.
- Term papers, résumés word processed IBM correcting typewriters you can use. Self-serve copiers (not coin-operated) complete service. Cash, cheque, Visa, Mastercard. Open evenings, Saturdays. Mark 9, HUB Mall. 432-7936.
- Male volunteers required. Eight-week diet study. Must be less than 170 lbs; sedentary. All meals provided on campus. Honorarium \$150. Call Linda McCargar, 432-5629. Department of Foods and Nutrition.
- Journeyman carpenter - Finishing, framing, drywall, taping lino tile carpets, plumbing, electrical. No job too small. References. Call David Richards, 437-0794.
- Word processing - Experience doing theses, manuscripts, books, grants, etc. Medical terminology. \$1.90/page. IM Office Automation. 424-5719.
- JL Citation Services. Computerized literature searching - all fields. Full searches & automatic updating. Search strategies carefully formulated. Satisfaction guaranteed. 487-8652.
- Specialized software. I write software for Apple, CP/M, MTS, or other computers. My specialty is software for communicating with custom hardware. Call Bill at 432-2574 or 438-5369.
- Editing, proofreading, indexing. Prompt, reliable, accurate service and reasonable rates on manuscripts of all types. 434-8053, anytime.
- Consider: An experienced typist, IBM Selectric, reasonable rates and fast service. 455-9715.
- Professional seamstress and tailors. Made to order garments. General alteration 469-6292, consultant Phil.
- Experienced architect. Will do renovation/new home designs. Call 973-3198 (local).

Architecture Lecture Series

Spring 1986

- Feb. 26 James Cheng, Vancouver, B.C.
- Mar. 19 Les Stechesen, Winnipeg, Man.
- Mar. 26 John Morris Dixon, Stamford, Conn.
- Apr. 9 Charles Gwathmey, New York, N.Y.
